XIV CONGRESS

Chengdu, China

September 14-20, 2022

The XIV Congress of the International Association for Engineering Geology and the Environment will be held in Chengdu Century City New International Convention and Exhibition Center, Chengdu, China from September 14 to 20, 2022. Based on the theme of “**Engineering Geology for a Habitable Earth**”, the congress is expected to enhance the disciplinary and research development of international engineering geology and the environment, and contribute to the advancement of major projects, ecological progress, and habitable earth with research and discussion in the engineering geology and global climate change, geological hazard assessment and prevention, geotechnical properties of rock and soil mass, engineering geology and the environmental issues concerning marine, transportation, urban and ecological environment protection in major projects, engineering geology and resilience engineering construction, intelligent engineering geology, and new theories, methods, and techniques in engineering geology, etc.

We warmly welcome the worldwide engineering geological community to come to Chengdu to participate in this academic event.

General Scientific Themes

- ◆ Climate Change Mitigation and Adaption
- ◆ Engineering Geology and Sustainable Development
- ◆ Mechanism, Monitoring and Early Warning, Prevention and Assessment of Geological Disasters
- ◆ Environmental Engineering Geology and Ecosystem Protection
- ◆ Geotechnical Properties of Rock and Soil Mass
- ◆ Traffic Engineering Geology and Sichuan-Tibet Railway Construction
- ◆ Energy Engineering Geology and Deep Earth Resource Exploitation
- ◆ Urban Engineering Geology and Underground Space Utilization
- ◆ Marine Engineering Geology and Coastal Development
- ◆ Polar, Planetary Engineering Geology and Disasters
- ◆ Artificial Intelligence, Big Data and Engineering Geology
- ◆ New Theory and Technology of Engineering Geology
- ◆ Preservation of Cultural Heritage and Engineering Geology
- ◆ Education and Disciplinary Development of Engineering Geology

IAEG Organization

Sponsor:

International Association for Engineering Geology and the Environment (IAEG)

Organizers:

IAEG China National Group
Engineering Geology Commission, China Geology Society
State Key Laboratory of Geohazard Prevention and Geoenvironment Protection, Chengdu University of Technology

Call for Sessions

The organizing committee would like to invite **session proposals** in related topics. Creativity and innovation are positively encouraged in the development of topics. This call will generate session topics for congress participants to choose from during the published paper submission, oral presentation and poster. Session organizers for included sessions are responsible for accepting or declining participants to their sessions.

All session proposals must include the name, institutional affiliation, and email address of the session organizer; a title; and a brief abstract that describes the session and ideally how the session fits into the congress theme. Indicate which type of theme you are submitting for consideration.

If you are interested, please check the attached application on <http://en.sklgp.cdut.edu.cn/> and reply to us before **June 30, 2021**. For further information, please feel free to contact us.

Chengdu is a vibrant city that has risen up as one of the must-see destinations in China, and with a total population of nearly 16 million. As the capital of Sichuan Province, it has been the center of technology, economy, trade, finance and transportation in southwestern China.

Founded by the state of Shu prior to its incorporation of China, Chengdu has a history of over 3000 years. Its prehistoric settlers included the Sanxingdui culture. The site of Dujiangyan is one of China's most ancient and successful irrigation systems, watered by the Min River. The city is also the home to Chengdu Research Base of Giant Panda Breeding.

Moreover, Chengdu was awarded the title of the City of Gastronomy by the UNESCO. Famous local dishes include Hotpot, Mapo Doufu and Dan Dan Mian etc.
